

# CANVAS ART PRINTS

## STRETCHED CANVAS

Urban Road's stretched canvas fine art prints are professionally printed on polycotton artist canvas, using archival inks and then stretched and gallery wrapped. This means the image is stretched around a 38mm frame to create a seamless, museum quality finish. All stretched and box framed art prints arrive ready to hang.

## SHADOW BOX FRAMES

We also offer the option to add a shadow box frame to your Urban Road canvas art print. A little different from a traditional framed print, the canvas sits within the box frame with a 5mm gap, creating a sophisticated shadow effect between the frame and the canvas. Our solid timber box frame mouldings are 10mm wide, and 55mm deep, and add approximately 40mm to the length and height of the listed canvas size.
