

FRAMED ART PRINTS

Urban Road's framed prints are printed using archival inks and paper - which means no fading! The frames are made from high-quality timber mouldings, the Standard profile measures 20mm wide x 20mm deep, while the Premium profile is 30mm wide x 45mm deep. The framed prints are securely mounted onto foam core and framed behind museum grade plexiglass.

Framed artworks are available in black, white and oak finish, with a choice of matboard, no matboard or printed white border. All artworks come ready to hang.
